English

Profile

I have experience in **Java and Python programming**, particularly in designing and implementing classes and methods. Your **front-end development** skills likely include working with **HTML, CSS, and JavaScript**, possibly with frameworks like React or Vue.js. Additionally, you have an eye for **design**, which means you might be skilled in UI/UX design principles and tools like Figma or Adobe XD.

Education

BCA , Chennai

April 2023 — Present
